II Brief Information about the Activity

Objectives for conducting Activity	To serve the underprivileged people in the society To help the needy people in the society To spend time with municipality school children in teaching them various skills.
Methodology	Visits to orphanages, old age homes, NGOs working for deprived children, etc.
Outcome	The student teachers were sensitized to the needs of underprivileged sections of the society The student teachers developed an empathetic attitude towards the children from disadvantaged sections of the society. The student teachers played a role in helping the less fortunate people of the society in their own little ways.
