II Brief Information about the Activity

Topic/Subject of the Activity	Drama & Art in Education
Objectives for conducting Activity	<p>i. Integrating drama and art into education, fosters holistic learning and enhances students' personality development. Through engaging in creative activities, students can acquire crucial life skills such as problem-solving, leadership, cooperation, and collaboration.</p> <p>ii. To incorporate drama and art in education which will enable students to uncover the diverse layers of meaning embedded within texts and contexts. Through dramatic performances and artistic expressions, students can delve deeper into literary works and gain a richer understanding of the underlying themes and messages and cultivate their ability to communicate effectively and engage with others, both within and outside the realm of the arts.</p>
Methodology	The workshop emphasized hands-on experiences, allowing students to actively participate in drama and art activities. Students were also encouraged to work collaboratively in small groups or teams and to connect drama and art activities with academic subjects to reinforce learning
Outcome	Participants will develop their creative thinking skills through engaging in drama and art activities. They will learn to think outside the box, generate innovative ideas, and express themselves artistically. It will enhance their verbal and nonverbal communication skills by actively participating in dramatic performances, group discussions, and artistic expressions.
