I am Clarissa Fernandes. I am studying in seventh std. I am feeling happy to know regarding National Digital Library of India (ndli) , and how to use it. It is very useful for me in my studies.

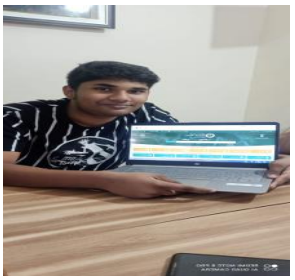

My students name is Sharon , she is an teacher and she teaches English for the Secondary school .She was very surprised an amazed to see and use NDLI as there are very few platforms which provides so much of free acces to knowledge . Since she is an English literate graduate now she can read or watch many videos on her course and this will polish her knowledge and provide more advance knowledge to th students.
