English Grammar Pro - Beginner to Advanced

Duration of the Course: 40 hours

Feb 2020 - April 2020 (20 Sessions)

Course Conductor – Dr. Cerena Aurin D'Cunha

Rationale:

Grammar is the foundation of English language. It has a great impact on all four skills of language viz. reading, writing, listening and speaking. Superior communication skills call for an enhanced level of grammatical proficiency. Competence in communication involves knowledge and application of appropriate grammar and language to convey accurate meaning. Thus, teaching of grammar is considered crucial and hence has found its way into syllabi and curriculum.

English particularly as a second or a foreign language is difficult to acquire naturally; training and structured education are imperative. Though it is argued that some learners acquire grammar rules naturally, but it cannot be negated that accurate and fluent English Language requires learning of grammar.

With this purpose, the English Grammar Course was constructed. It aims at ensuring complete understanding of the concepts of Grammar, use of correct spoken and written English and ability to self-correct when using English language.

Expected Course Outcomes:

At the end of this course the students will be able to

- Recognize and understand the meaning of grammatical structures in written and spoken form.
- To use grammatical structures meaningfully and appropriately in oral and written production.
- Self-correct grammatically when using English Language.
